All numbers have been run off of Power School.

The Outreach Program tries to be preventative in helping families avoid illegal absences. The Outreach Coordinator makes phone calls to families to remind them to turn excuses in. Also if there are students absent for an extended period of time with the school not knowing why, the Outreach Coordinator will make phone call attempts and if unsuccessful will make home visits.

Teacher Effectiveness

- All Formal observations, walk throughs, pre-observation meetings, post observations were conducted, and portfolios were collected. Evaluations will be finalized as soon as the information comes in from the state for PVAAS, as well as our PA Future Ready Index score.

Events of Note:

- Fire Drills
- Multiple field trips to Hasson Park by all the Grades
- “Specials” day, our specials teachers put together a bunch of activities for the students to do outside on June 7th.
- Dance Party - Each grade level got their own dance party on the playground on June 4th. The dance moves were incredible!
- Home and school sponsored ICO to come to the school and pass out shaved ice for the students during the afternoon on June 3rd.
- WE ENDED THE YEAR BEING THE ONLY SCHOOL IN THE DISTRICT THAT DIDN'T CLOSE...we would say that's noteworthy.
